Eco-Tyranny: How the Left's Green Agenda will Dismantle America

Brian Sussman

Eco-Tyranny: How the Left's Green Agenda will Dismantle America Brian Sussman

Exorbitant energy prices, rolling blackouts, acute food shortages, critical water deficiencies, and private property rights usurped: this is America's future as envisioned by the environmental movement's well-honed green agenda. In order to de-develop the United States, the Left is using phony environmental crises to demonize capitalism and liberty, and purposefully withhold America's vast natural resources-and the Obama Administration is piloting the plan. *Eco-Tyranny*, by best-selling author Brian Sussman, presents a rational strategy to responsibly harvest our nation's vast resources in order to fulfill the future needs of a rapidly growing population.
