Cell Membranes

Lukas Buehler

Cell Membranes Lukas Buehler

Cell Membranes offers a solid foundation for understanding the structure and function of biological membranes. The book explores the composition and dynamics of cell membranes—discussing the molecular and biological diversity of its lipid and protein components and how the combinatorial richness of both components explains the chemical, mechanical, and self-renewing properties of cell membranes. Cell Membranes is a valuable resource for advanced undergraduate students, graduate students, and professionals.
