## **Ethics, Exegesis and Philosophy: Interpretation after Levinas** Richard A. Cohen

The reputation and influence of Emmanuel Levinas (1906–96) has grown powerfully. Well known in France in his lifetime, he has since his death become widely regarded as a major European moral philosopher profoundly shaped by his Jewish background. A pupil of Husserl and Heidegger, Levinas pioneered new forms of exegesis with his post-modern readings of the Talmud, and as an ethicist brought together religious and non-religious, Jewish and non-Jewish traditions of contemporary thought. Richard A. Cohen has written a book which uses Levinas' work as its base but goes on to explore broader questions of interpretation in the context of text-based ethical thinking. Levinas' reorientation of philosophy is considered in critical contrast to alternative contemporary approaches such as those found in modern science, psychology, Nietzsche, Freud, Husserl, Heidegger, Sartre, Merleau-Ponty, Derrida and Ricoeur. Cohen explores a manner of philosophizing which he terms 'ethical exegesis'.
