**The Road to Botany Bay: An Exploration of Landscape and History** Paul Carter

*The Road to Botany Bay*, first published in 1987 and considered a classic in the field of cultural and historical geography, examines the poetic constitution of colonial society. Through a far-reaching exploration of Australia's mapping, narrative description, early urbanism, and bush mythology, Paul Carter exposes the mythopoetic mechanisms of empire. A powerfully written account of the ways in which language, history, and geography influenced the territorial theater of nineteenth-century imperialism, the book is also a call to think, write, and live differently.
