Modelo para armar: La evolución humana, paso a paso (y parte a parte) (Ciencia que ladra... serie Clásica) (Spanish Edition) Martín Cagliani

¿De dónde venimos los humanos? No hay viaje más fascinante que el de la historia de nuestra especie. Llevamos dentro de nosotros millones de años de evolución, y nuestro cuerpo es un “collage” de adaptaciones y cambios que heredamos de algún ancestro perdido en el camino. Hay un océano corriendo por nuestras venas, pero también almacenamos los peces de ese océano, y rastros de muchos otros animales que representan nuestro más profundo linaje. En este modelo para armar veremos de dónde han salido nuestras piernas, nuestras bocas, nuestros huesos, y cómo esto que somos desnuda nuestro pequeño lugar en el universo. Después de todo, siempre es útil estar al tanto de que nuestras manos provienen de las aletas de cierto pez primigenio, o saber por qué en la actualidad no estamos cubiertos de pelo. Conocer nuestra historia es el mejor punto de partida para saber adónde vamos, porque nuestro cuerpo y sus partes siguen y seguirán evolucionando. Martín Cagliani enciende la máquina del tiempo y nos lleva de viaje por la película de la humanidad, desde esa sopa donde se originó la vida hasta la multitud de homínidos que alguna vez poblaron el planeta. En medio, un mundo de sorpresas que nos ayuda a comprendernos mejor, desde aquel primate que manipuló las rocas para fabricar herramientas hasta este que ahora tiene un libro en las manos.
