## Culinary Tourism (Material Worlds)

"From Kosher Oreos to the gentrification of Mexican cuisine, from the charismatic cook of Basque communities in Spain and the United States to the mainstreaming of southwestern foodways, Culinary Tourism maps a lively cultural and intellectual terrain."?from the foreword by Barbara Kirshenblatt-GimblettCulinary Tourism is the first book to consider food as both a destination and a means for tourism. The book's contributors examine the many intersections of food, culture and tourism in public and commercial contexts, in private and domestic settings, and around the world. The contributors argue that the sensory experience of eating provides people with a unique means of communication. Editor Lucy Long contends that although the interest in experiencing "otherness" is strong within American society, total immersion into the unfamiliar is not always welcome. Thus spicy flavors of Latin America and the exotic ingredients of Asia have been mainstreamed for everyday consumption. Culinary Tourism explains how and why interest in foreign food is expanding tastes and leading to commercial profit in America, but the book also show how tourism combines personal experiences with cultural and social attitudes toward food and the circumstances for adventurous eating.
