*Goutam Saha, Alok Barua, Satyabroto Sinha*

**Bioreactors: Animal Cell Culture Control for Bioprocess Engineering** Goutam Saha, Alok Barua, Satyabroto Sinha

**Bioreactors: Animal Cell Culture Control for Bioprocess Engineering** presents the design, fabrication, and control of a new type of bioreactor meant especially for animal cell line culture. The new bioreactor, called the "see-saw bioreactor," is ideal for the growth of cells with a sensitive membrane. The see-saw bioreactor derives its name from its principle of operation in which liquid columns in either limb of the reactor alternately go up and down. The working volume of the reactor is small, to within 15 L. However, it can easily be scaled up for large production in volume of cell mass in the drug and pharmaceutical industries.

The authors describe the principle of operation of the see-saw bioreactor and how to automatically control the bioprocess. They discuss different control strategies as well as the thorough experimental research they conducted on this prototype bioreactor in which they applied a time delay control for yield maximization.

To give you a complete understanding of the design and development of the see-saw bioreactor, the authors cover the mathematical model they use to describe the kinetics of fermentation, the genetic algorithms used for deriving the optimal time trajectories of the bioprocess variables, and the corresponding control inputs for maximizing the product yield. One chapter is devoted to the application of time delay control. Following a description of the bioreactor's working setup in the laboratory, the authors sum up their investigation and define the future scope of work in terms of design, control, and software sensors.

### **From reader reviews:**

#### **Ernest Baker:**

Why don't make it to be your habit? Right now, try to ready your time to do the important action, like looking for your favorite reserve and reading a book. Beside you can solve your condition; you can add your knowledge by the publication entitled Bioreactors: Animal Cell Culture Control for Bioprocess Engineering. Try to the actual book Bioreactors: Animal Cell Culture Control for Bioprocess Engineering as your friend. It means that it can being your friend when you experience alone and beside associated with course make you smarter than ever before. Yeah, it is very fortunated to suit your needs. The book makes you a lot more confidence because you can know every thing by the book. So , let's make new experience along with knowledge with this book.

#### **Betty Ahlstrom:**

Book is to be different per grade. Book for children till adult are different content. To be sure that book is very important for us. The book Bioreactors: Animal Cell Culture Control for Bioprocess Engineering was making you to know about other expertise and of course you can take more information. It is extremely advantages for you. The publication Bioreactors: Animal Cell Culture Control for Bioprocess Engineering is not only giving you far more new information but also for being your friend when you truly feel bored. You can spend your own spend time to read your e-book. Try to make relationship together with the book Bioreactors: Animal Cell Culture Control for Bioprocess Engineering. You never truly feel lose out for everything in the event you read some books.

#### **Valerie Orbison:**

The knowledge that you get from Bioreactors: Animal Cell Culture Control for Bioprocess Engineering could be the more deep you digging the information that hide into the words the more you get interested in reading it. It doesn't mean that this book is hard to be aware of but Bioreactors: Animal Cell Culture Control for Bioprocess Engineering giving you thrill feeling of reading. The author conveys their point in selected way that can be understood by simply anyone who read this because the author of this publication is well-known enough. This particular book also makes your current vocabulary increase well. It is therefore easy to understand then can go together with you, both in printed or e-book style are available. We propose you for having this Bioreactors: Animal Cell Culture Control for Bioprocess Engineering instantly.

#### **Rose Ibarra:**

Many people spending their time by playing outside together with friends, fun activity using family or just watching TV the whole day. You can have new activity to shell out your whole day by reading through a book. Ugh, do you think reading a book really can hard because you have to bring the book everywhere? It alright you can have the e-book, getting everywhere you want in your Smart phone. Like Bioreactors: Animal Cell Culture Control for Bioprocess Engineering which is having the e-book version. So , why not

try out this book? Let's observe.
