Nathaniel S. Borenstein

Programming as if People Mattered: Friendly Programs, Software Engineering, and Other Noble Delusions (Princeton Legacy Library) Nathaniel S. Borenstein

Through a set of lively anecdotes and essays, Nathaniel Borenstein traces the divergence between the fields of software engineering and user-centered software design, and attempts to reconcile the needs of people in both camps.

Originally published in 1991.

The **Princeton Legacy Library** uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These paperback editions preserve the original texts of these important books while presenting them in durable paperback editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.
