## **Robert Frank's 'The Americans': The Art of Documentary Photography** Jonathan Day

In the mid 50s, Swiss-born New Yorker Robert Frank embarked on a ten-thousand-mile road trip across post-war America, capturing thousands of photographs of all levels of a rapidly changing society. The resultant photo-book, *The Americans*, represents a seminal moment in both photography and in America's emerging understanding of itself. To mark the book's fiftieth anniversary, Jonathan Day revisits this pivotal work and contributes a thoughtful and revealing critical commentary. Though the importance of *The Americans* has been widely acknowledged, it still retains much of its mystery. This comprehensive analysis places it thoroughly in the context of contemporary photography, literature, painting, music and advertising.
