School Leadership in Times of Urban Reform (Topics in Educational Leadership (Paperback))

School Leadership in Times of Urban Reform (Topics in Educational Leadership (Paperback))

Developed in response to the growing interest in examining individual schools as they undergo change, this book features eight case studies of urban elementary and high schools as they face problems and attempt to find solutions in their quest to reform themselves. The cases, with all their pitfalls and problems, provide examples of the very bumpy road of change and of the individual school cultures that sometimes support and often impede reform. Told in the individual voices of various school leaders, the narratives reflect the inevitable biases of people immersed in their work. Their richness derives from the passion with which these stories are told. Textured and complex, these chronicles invite readers to think deeply about the many layers involved in the process of changing schools.

School Leadership in Times of Urban Reform is a powerful text for courses in educational leadership, school reform, and the politics of education. Engaging pedagogical features at the end of each case facilitate its use:

- *Each case ends with an "Analysis of Leadership" section and "Extended Thinking" questions and activities.
- *Sections 2-5 conclude with "Reflections" to help the reader uncover the major themes and issues.

Section 1 is an introductory analysis of reform and school leadership; it provides a frame of reference for examining the case studies that follow. Sections 2-5 are organized around eight case studies (two per section) that address questions of how the leadership roles of school principals and teachers have been shaped by the reform initiative; how parents and local communities have contributed to school reform; and how the culture of the school, and teaching and learning, have been shaped by reform. The final section synthesizes and analyzes what the authors have learned through these cases concerning the leadership roles of principals, parents, community members, and teachers during the period of reform; how the cultures of schools changed as reform progressed; and how reform impacted the instructional practices of teachers and the learning of students.
