**New Chemistry and New Opportunities from the Expanding Protein Universe: Proceedings of the 23rd International Solvay Conference on Chemistry** Kurt Wüthrich, Ian A Wilson, Donald Hilvert, Dennis W Wolan, Anne De Wit

A select group of 40 eminent scientists from all parts of the world met to consider the current state of chemical and biological knowledge on the ever-expanding protein universe, and to discuss emerging opportunities for the foreseeable future. Scientific approaches to discover, characterize, and regulate protein functions were discussed over a range of disciplines, including natural product chemistry, microbiology, enzymology, biochemistry, structural biology, chemical biology, and glycobiology. Some notable highlights included discovery of new enzymatic pathways, innovative carbohydrate chemistry, design of proteins containing unnatural amino acids, structural elucidation of complex supramolecular machines, and design and application of small molecule drugs, biologics and biosimilars.

This fascinating compendium of scientific presentations and in-depth discussions affords a unique perspective on today's protein chemistry and biology as well as on the challenges for tomorrow.

**From reader reviews:**

**Ruth Cook:**

Do you have favorite book? For those who have, what is your favorite's book? Book is very important thing for us to know everything in the world. Each book has different aim or perhaps goal; it means that reserve has different type. Some people really feel enjoy to spend their time for you to read a book. They are really reading whatever they consider because their hobby will be reading a book. Why not the person who don't like reading a book? Sometime, individual feel need book when they found difficult problem or perhaps exercise. Well, probably you will need this New Chemistry and New Opportunities from the Expanding Protein Universe:Proceedings of the 23rd International Solvay Conference on Chemistry.

**Anna Thompson:**

Do you have something that you like such as book? The book lovers usually prefer to pick book like comic, brief story and the biggest you are novel. Now, why not hoping New Chemistry and New Opportunities from the Expanding Protein Universe:Proceedings of the 23rd International Solvay Conference on Chemistry that give your pleasure preference will be satisfied through reading this book. Reading addiction all over the world can be said as the opportunity for people to know world much better then how they react when it comes to the world. It can't be stated constantly that reading habit only for the geeky individual but for all of you who wants to always be success person. So , for every you who want to start studying as your good habit, you could pick New Chemistry and New Opportunities from the Expanding Protein Universe:Proceedings of the 23rd International Solvay Conference on Chemistry become your starter.

**Justin Davis:**

In this era globalization it is important to someone to get information. The information will make someone to understand the condition of the world. The condition of the world makes the information simpler to share. You can find a lot of recommendations to get information example: internet, newspapers, book, and soon. You can view that now, a lot of publisher that will print many kinds of book. The actual book that recommended to you personally is New Chemistry and New Opportunities from the Expanding Protein Universe:Proceedings of the 23rd International Solvay Conference on Chemistry this e-book consist a lot of the information with the condition of this world now. This specific book was represented just how can the world has grown up. The vocabulary styles that writer use to explain it is easy to understand. Typically the writer made some analysis when he makes this book. That is why this book ideal all of you.

**David Auman:**

Is it an individual who having spare time and then spend it whole day by watching television programs or just lying down on the bed? Do you need something totally new? This New Chemistry and New Opportunities from the Expanding Protein Universe:Proceedings of the 23rd International Solvay Conference

on Chemistry can be the reply, oh how comes? The new book you know. You are therefore out of date, spending your free time by reading in this fresh era is common not a nerd activity. So what these guides have than the others?
