## **Against Inclusiveness: How the Diversity Regime is Flattening America and the West and What to Do About It** James Kalb

Diversity. Inclusiveness. Equality.—ubiquitous words in 21st-century political and social life. But how do those who police the limits of acceptable discourse employ these as verbal weapons to browbeat their often hapless fellows into having a "real conversation"? How do these terms function as mere doublespeak for the expectation of full-scale capitulation to the views of "right-thinking people"? Those who have long been afraid to touch the issues that attend these words will take great reassurance in an articulate statement of the kind presented in *Against Inclusiveness*, where the author's approach is sober and extremely well reasoned, as he attempts to marshal truth and fairness as criteria in the examination of issues critical to modern social life.

Kalb argues that in current inclusiveness ideology, "classifying people" becomes an exercise of power by the classifier that denies the dignity of the person classified. All rational consideration of human reality is thereby suspended, and the result is something arbitrary and increasingly tyrannical. *Against Inclusiveness* lays the foundation for what an honest, forthright, real conversation on these matters might look like.
