The Selfish Gene (Chinese Edition) Richard Dawkins

Where are we from? And where do we go? What is the meaning of life? How do we cognize ourselves? This book is full of imagination. Any living beings, including ourselves, are just the survival machine, which has already been input into some formula secretly in fact, to maintain those selfish molecular called gene. This book is a real cognitive science. Replication, variation and elimination, these three simple mechanisms can evolute the numerous life phenomenons in the boundless universe. This is a system of general self consistency, though many detailed problems can perfect constantly.
