AAA and Network Security for Mobile Access: Radius, Diameter, EAP, PKI and IP Mobility Madjid Nakhjiri, Mahsa Nakhjiri

AAA (Authentication, Authorization, Accounting) describes a framework for intelligently controlling access to network resources, enforcing policies, and providing the information necessary to bill for services.

AAA and Network Security for Mobile Access is an invaluable guide to the AAA concepts and framework, including its protocols Diameter and Radius. The authors give an overview of established and emerging standards for the provision of secure network access for mobile users while providing the basic design concepts and motivations.

AAA and Network Security for Mobile Access:

- Covers trust, i.e., authentication and security key management for fixed and mobile users, and various approaches to trust establishment.
- Discusses public key infrastructures and provides practical tips on certificates management.
- Introduces Diameter, a state-of-the-art AAA protocol designed to meet today's reliability, security and robustness requirements, and examines Diameter-Mobile IP interactions.
- Explains RADIUS (Remote Authentication Dial-In User Services) and its latest extensions.
- Details EAP (Extensible Authentication Protocol) in-depth, giving a protocol overview, and covering EAP-XXX authentication methods as well as use of EAP in 802 networks.
- Describes IP mobility protocols including IP level mobility management, its security and optimizations, and latest IETF seamless mobility protocols.
- Includes a chapter describing the details of Mobile IP and AAA interaction, illustrating Diameter Mobile IP applications and the process used in CDMA2000.
- Contains a section on security and AAA issues to support roaming, discussing a variety of options for operator co-existence, including an overview of Liberty Alliance.

This text will provide researchers in academia and industry, network security engineers, managers, developers and planners, as well as graduate students, with an accessible explanation of the standards fundamental to secure mobile access.

From reader reviews:

Jacqueline Bull:

Why don't make it to be your habit? Right now, try to ready your time to do the important action, like looking for your favorite guide and reading a publication. Beside you can solve your condition; you can add your knowledge by the guide entitled AAA and Network Security for Mobile Access: Radius, Diameter, EAP, PKI and IP Mobility. Try to the actual book AAA and Network Security for Mobile Access: Radius, Diameter, EAP, PKI and IP Mobility as your friend. It means that it can to get your friend when you sense alone and beside those of course make you smarter than previously. Yeah, it is very fortunated in your case. The book makes you considerably more confidence because you can know every thing by the book. So , let me make new experience and knowledge with this book.

Ollie Brooks:

People live in this new day of lifestyle always make an effort to and must have the free time or they will get wide range of stress from both way of life and work. So , once we ask do people have extra time, we will say absolutely yes. People is human not really a robot. Then we request again, what kind of activity have you got when the spare time coming to you of course your answer will certainly unlimited right. Then do you ever try this one, reading ebooks. It can be your alternative inside spending your spare time, the book you have read is AAA and Network Security for Mobile Access: Radius, Diameter, EAP, PKI and IP Mobility.

Henry Buford:

Don't be worry should you be afraid that this book will filled the space in your house, you may have it in e-book technique, more simple and reachable. That AAA and Network Security for Mobile Access: Radius, Diameter, EAP, PKI and IP Mobility can give you a lot of close friends because by you looking at this one book you have matter that they don't and make anyone more like an interesting person. This specific book can be one of a step for you to get success. This book offer you information that might be your friend doesn't learn, by knowing more than various other make you to be great men and women. So , why hesitate? Let's have AAA and Network Security for Mobile Access: Radius, Diameter, EAP, PKI and IP Mobility.

Carlos Tabor:

What is your hobby? Have you heard which question when you got college students? We believe that that query was given by teacher with their students. Many kinds of hobby, Every person has different hobby. So you know that little person such as reading or as looking at become their hobby. You have to know that reading is very important as well as book as to be the matter. Book is important thing to incorporate you knowledge, except your own personal teacher or lecturer. You will find good news or update regarding something by book. Many kinds of books that can you take to be your object. One of them is niagra AAA and Network Security for Mobile Access: Radius, Diameter, EAP, PKI and IP Mobility.
