Saccargia (Sardegna medievale) Fernanda Poli

The book provides a detailed description of the architectural structure and the different phases of construction of the monastic complex. Particular attention is devoted to the pictorial cycle, to the architectural sculptures of the porch, and of those randomly placed inside the church, especially to the binate capitals from the cloister. Finally, a stylistic and iconographic reading of the Retablos, formerly belonging to the Basilica, and now preserved at CE. DO. C. Of Codrongianos, complete the work.
