Build Your Own Autonomous NERF Blaster: Programming Mayhem with Processing and Arduino Bryce Bigger

Design and build your own robotic, Arduino-powered sentry blaster!

Break out the big daddy blaster--and teach it to act on its own! *Build Your Own Autonomous NERF Blaster* walks you through cool DIY projects, such as working with motion sensors, remote monitors, and facial detection software, all while building up to the ultimate goal: a robotic NERF weapon that finds and fires on its targets! Have some serious fun along the way as you learn about creative coding with Processing and Arduino.

Step-by-step instructions show you how to:

- Construct and mount a servo, NERF blaster, and webcam in harmonious alignment
- Program Processing to receive video, search it for a face, and then pass instructions to your Arduino board via USB cable
- Configure Arduino to process the message and instruct the servo to move to a new position
- Specify your target radius in Processing and, when met, send the message to Arduino that it's time to "open fire!"

From reader reviews:

Michael Pauls:

Here thing why this kind of Build Your Own Autonomous NERF Blaster: Programming Mayhem with Processing and Arduino are different and reliable to be yours. First of all examining a book is good but it depends in the content from it which is the content is as tasty as food or not. Build Your Own Autonomous NERF Blaster: Programming Mayhem with Processing and Arduino giving you information deeper since different ways, you can find any book out there but there is no reserve that similar with Build Your Own Autonomous NERF Blaster: Programming Mayhem with Processing and Arduino. It gives you thrill examining journey, its open up your eyes about the thing in which happened in the world which is probably can be happened around you. It is possible to bring everywhere like in recreation area, café, or even in your approach home by train. When you are having difficulties in bringing the printed book maybe the form of Build Your Own Autonomous NERF Blaster: Programming Mayhem with Processing and Arduino in e-book can be your alternate.

Edward Stevenson:

Reading a e-book can be one of a lot of task that everyone in the world loves. Do you like reading book and so. There are a lot of reasons why people enjoyed. First reading a reserve will give you a lot of new information. When you read a publication you will get new information since book is one of numerous ways to share the information or their idea. Second, reading a book will make anyone more imaginative. When you reading through a book especially fictional book the author will bring someone to imagine the story how the character types do it anything. Third, you may share your knowledge to some others. When you read this Build Your Own Autonomous NERF Blaster: Programming Mayhem with Processing and Arduino, you could tells your family, friends along with soon about yours e-book. Your knowledge can inspire the others, make them reading a book.

Barbara Saddler:

The book untitled Build Your Own Autonomous NERF Blaster: Programming Mayhem with Processing and Arduino is the guide that recommended to you to read. You can see the quality of the reserve content that will be shown to anyone. The language that publisher use to explained their way of doing something is easily to understand. The copy writer was did a lot of analysis when write the book, so the information that they share for you is absolutely accurate. You also could possibly get the e-book of Build Your Own Autonomous NERF Blaster: Programming Mayhem with Processing and Arduino from the publisher to make you a lot more enjoy free time.

Luther Jensen:

As we know that book is significant thing to add our information for everything. By a book we can know everything you want. A book is a list of written, printed, illustrated or maybe blank sheet. Every year ended

up being exactly added. This reserve Build Your Own Autonomous NERF Blaster: Programming Mayhem with Processing and Arduino was filled in relation to science. Spend your extra time to add your knowledge about your science competence. Some people has different feel when they reading some sort of book. If you know how big selling point of a book, you can really feel enjoy to read a reserve. In the modern era like today, many ways to get book that you wanted.
