Law and Justice in a Multicultural Society. The Case of Mozambique

Departing from a broad understanding of law in Mozambique, this work analyses the complex network of judicial systems by interrogating the roles of the entities intervening in the system in colonial and postcolonial contexts. The main objective is to promote an empirically sound and dynamic understanding of the relationships between the multiple judicial entities present in the country within the context of cultural transformation in Africa. Overall, the book is intended as a contribution to current debates on the formation of the state in Mozambique from the nineteenth century.
